WiscoLinks, a website launched in May 2006 in designed specifically for University of Wisconsin students and Madison residents. The website is intended to be the user's startup homepage, offering them quick and easy access to a variety of useful internet resources. The website is constantly being improved to incorporate useful links to meet the user's needs. Since the website is designed to be the startup homepage for students, it is receiving heavy daily traffic, giving businesses an ideal advertising setting specifically targeted at UW students and local residents. Upon signing an agreement, restaurants will receive a featured customized button on the front page of the website, which is linked to a page containing the restaurant's menu, location, contact information, hours, and any other useful information as desired. The menu will open in the center of the page, giving the user easy navigation of the site.

Featured buttons on right side will open menu's in the center of page.

Advertising banners may feature any images and/or text relevant to the business.

Additional add space is available-please inquire.

Rates are valid for duration of contract. Rates for agreements not under contract subject to monthly change.

Link navigation window. User chooses category in top of menu to open desired links.

Links to for local restaurant menu's and services. Various monthly rates are available to feature your business.

Website Navigation: The website is designed to be very easy to navigate, allowing the user to access all the information they need without leaving the website. The user is able to choose the category of the link they desire (i.e. weather, news,, events, etc.), which will display a set of organized subcategories in the center navigation window. The user will also be able to choose from the options on the right side (i.e. delivery, services), which will display a list of featured menu's. Once a user selects an option, the menu will appear in the center navigation window.
